Stereo Tool v3 features ultra precise control of input gain and individual pan for left and right channels.. There is a vector scope display, as well as PPM meters for both inputs and outputs, and a phase correlation meter.. Stereo Tool from Flux:: has been in my tool kit ever since it came out as it is very useful for manipulation of stereo audio that isn't as it should be, or you need to change. [D-link 1320 Setup](#)
