Malwarebytes Corporation offers the packs suitable for home and business usage The free version of Malwarebytes provides a 30-days trial; it has limited functionality, but it does offer full scanning of a Mac, to let a user check on the app's speed and efficiency.. This is a volunteer user community No one here is an Apple employee, and Apple does not 'endorse' any 3rd party antivirus or malware scanning apps.. Making your Mac once again your Mac The app can be used for free to clean infected devices, but real-time protection requires an upgrade to the Premium plan, whose pricing info can be found here.
